EDMONTON BULLETIN NOV. 4TH, 1901

ONE PROVINCE OR TWO?

The Regina Standard is devoting itself to a consideration of the question of provincial government for the Territories. The Standard, let it be remembered, is opposed to the present Territorial government, and inasmuch as it is understood that the government is in favor of the organization of one province, the Standard demands in thunder tones that there shall not be one province but two. That much is easy; but it is not so easy to decide as to how the division into two provinces is to be made. The Standard apparently is in favor of a division of the Territories into an Eastern and a Western province. But in its argument it admits that the people of Eastern Assiniboia want one province and not two, while the people of Saskatchewan want a separate province, and the people of Northern Alberta want a northern province. It admits further that there is a great deal to be said in favor of each of these propositions, and falls to put forward any general argument in support of a division into eastern and western provinces. It only argues to the resident of East Assiniboia that a single province would require him to pay an unfair proportion of his taxes for the development of Alberta. Taking the case as stated by the Standard, Southern Alberta is the only part of the Territories that wants the division into east and west provinces. And taking its argument advanced to East Assiniboia, Southern Alberta would lose rather than gain by such a division.

Judging from the line of argument pursued by the Standard the question of division into provinces is chiefly a question of the location of capitals. Taking this for granted, the chief reason for the Standard's preference for eastern and western provinces is that such a division and arrangement would ensure Regina as the capital of the eastern province, while it has no sure thing if any other division, or if no division, is made.

In the humble opinion of this journal it would be the greatest mistake possible to allow public comment regarding the effort to secure improved financial arrangements for the Territories to degenerate into a war between rival claimants for the location of one or more provincial capitals. What the Territories need at the present stage of their development is efficient and economical local government, with light taxation. Experience in Canada has shown that to multiply governments is not economical and therefore cannot be efficient, and inevitably compels high taxation. No doubt the area of the Territories is great enough for many small provinces. But provincial subsidies are based on population not on area. Responsibility comes with area but revenue comes only with population. Because the Territories have a vastly greater area than Prince Edward Island, the local government whether territorial or provincial, has much greater responsibilities than the government of the island. But because the population of the Territories is approximately the same as that of the island we have no more money with which to meet those responsibilities, whether as territories or as a province. Divide the Territories into two fairly equal parts by either a north and south or east and west line, and either one will still have an area possibly ten times larger than the island with proportionate responsibilities and only half the population to draw subsidy on or to raise taxes from.

As long as our population is so greatly disproportioned to our area it is the part of wisdom to keep the cost of local government down to the lowest point consistent with efficiency. This can better be done by having only one administrative machine rather than two or more. If it were a fact that the present area of the Territories tends against efficient administration then a claim might be made for a division. But no one will deny that the duties laid upon the local government of the Territories are dealt with as promptly and efficiently as in any of the provinces; and it might even be claimed more so than in some. In these days of railways and telegraphs distance is no such bar to effective administration as it used to be. Diversity of interest is a more valid objection to the constitution of a single province than mere area; but the question to be considered is: Shall we gain more by one local government having measurably adequate funds, administering diverse interests; or by two local governments, hampered by inadequate funds, administering a similar diversity of interests?—for there must be a diversity of interests in each province under any possible division

that can be made. If we want the largest measure of efficiency at the smallest expense, we must wait for larger population and correspondingly larger revenues before demanding the doubling of the expenses of local government.

BUILDING STOPPED

The cold weather has stopped temporarily at least and probably for the season work on brick buildings.

In town two large buildings undertaken during the summer remain uncompleted, the new Presbyterian church and the new school.

The walls of the church are completed to the eaves and only twelve feet of brick work remain to be laid on the tower. Should the weather break for a few days this would be completed and the brick work on the building would then be finished. The trusses to support the roof have been put in place and the ceiling joists. The roof will be put on and the building closed in as soon as the weather permits. Should moderate weather prevail during the winter the plastering will be done, the seating put in and the building practically finished. With the exception of the brick work yet to be done and the plastering the only impediment to its completion is the discomfort experienced by workmen in cold weather.

The basement of the school has been completed, except the floor, and the walls of the building laid as far as the stone plinth. About half the stone needed for this is now in the building and masons have been at work during the past week preparing it for placing. The basement floor will not be put in until spring. All the heating and ventilating flues are in and have been carried up to a height of about six feet above the ground floor. The frames have been put in the basement windows. It is the intention to cover the floor and walls, stop up the windows and suspend operations until spring. About 210,000 plain brick are now on the ground and within the next few days 75,000 facing brick will be taken to the site. This will furnish sufficient material with which to carry on work in the spring until fresh supplies of next season's brick are available.

It is considered rather an advantage to let the concrete stand over winter without the pressure of the walls in order that it may become perfectly hardened.

C. N. R. FINISHED TO FORT FRANCES.

Telegram: Mr. D. Mann, of Mackenzie & Mann, left last evening, accompanied by a government engineer, for Fort Frances for the purpose of making a final inspection of the road through that section prior to receiving the permission of the Dominion government to carry passenger traffic over the road.

In conversation with Mr. Mann yesterday afternoon, a Telegram representative learned that the inspection would last for two or three days, and that it would be about two weeks before the passenger traffic would commence, provided, of course, that the road fulfilled all requirements, which Mr. Mann was certain it would.

Work was progressing on the road through to Port Arthur and Mr. Mann stated that the work would be completed within the month, and that a good proportion of this year's wheat crop would find an outlet via the C. N. R. line. Already the company have carried out of this province nearly 2,000,000 bushels of grain, and Mr. Mann said that altogether they would handle quite another 1,000,000 bushels before the season ended.

MANITOBA'S WHEAT CROP.

Free Press: Mr. J. G. King, of Port Arthur, left for the east yesterday after making inquiries here as to the amount of wheat which will be required to be cleaned or dried this fall at King's big drying elevator, Port Arthur. In conversation Mr. King, while admitting that there would be a large amount of wheat in Manitoba that would require to be treated, the immensity of the crop would make up for what loss there was from wet. "I do not believe," said Mr. King, "that the farmers will be able to get in anywhere near the amount now on the fields. The wheat will be left all winnowed of the western climate is such that outside of a slight discoloration the wheat will be able to stand this freezing. I do not think that more than a third of the big crop will be handled this fall."

ROSSLAND SMALLPOX SCARE.

A recent Rossland despatch says: Some alarm is felt in Rossland and other points near the international boundary line at the well authenticated reports of an epidemic of small pox at Bonner's Ferry, an important junction point on the line of the Great Northern railroad.

All traffic east and west over the Great Northern passes through the afflicted town and it is feared that the infection may be spread by parties coming through. Dr. Sinclair, Dominion health officer for this district has been advised of the condition of affairs and has learned from a medical practitioner at Bonner's Ferry that not less than 25 cases exist.

A quarantine officer is on duty at Rykert's, the nearest Canadian port of entry, and the Dominion government has been urged to appoint a medical man to assist in the work while the epidemic continues. With these precautions it is believed there is not the slightest danger of the disease extending to the Dominion territory.

MACLEOD WEATHER.

Advance, Oct. 29. The wind, which for several days had been holding in the west, veered around to the north on Friday evening, last, bringing with it a light frost. The feathered game must have thought it portended a storm as large flocks of geese and ducks could be heard passing to the southward all night long. The following day dawned bright and clear, however, and the birds went back again to the lakes and grain fields north of town.

Yesterday morning was ushered in by a rain storm. A cold north wind endeavored to take a hand in the proceedings but the west wind was too much for it and the threatened snow storm did not materialize.

C. N. R. INSPECTION.

Toronto, Oct. 29.—Provincial Engineer McCallum will leave early next week to inspect another hundred mile section of the Ontario and Rainy River railway which has just been completed. The line is now finished for a distance of 175 miles west from Stanley Junction and for 50 miles east of Beaver Mills and has been inspected 125 miles west of Stanley. The intermediate gap will, it is expected, be completed before the end of the year.

HUDSON'S BAY COMPANY

CHINA.
GLASS.
CROCKERY.

We have just received an immense shipment of the above goods, and we are showing some beautiful lines and exceptional values.

Window Frames, Mouldings, Turned Work, Egg Cases, etc.

PARTISAN HILLS.

The ladies aid of the Methodist church held a very successful social at Partisan Hill on the evening of Oct. 25th. Mr. H. Sparling ably filled the chair and a choice programme was delivered consisting of speeches, readings, solos, quartettes and duets. In addition to our local talent friends from Josephburg, Arvika, Lunkin and the East rendered assistance. Our member, Mr. J. W. Spera, M. L. A., was present and favored the audience with a speech. Rev. Aldridge gave a lecture on "The Indian as I knew him at Norway House," which was listened to with much interest. At the conclusion he sang two familiar hymns in the Indian language. Mr. Newton accompanying him on the organ. A dainty lunch was served during the evening. The proceeds amounted to \$37.50 which goes to furnish the new parsonage at the Fort.

The Partisan Hill Co's threshing machine, is idle, awaiting repairs from Winnipeg.

Quite a number from here took in the agricultural exhibition at the Fort last Thursday, and carried away a goodly number of prizes.

The members of the Christian Endeavor society were pleased last Thursday evening to see Mr. McLennan, of Stony Plain present. Mr. McLennan spent a few weeks here this summer during Rev. Forbes' illness, and he has many friends here who will always be glad to see his cheery face.

Mrs. Collins and Miss Boyle, of Edmonton, are the guests of Miss Cranston this week.

Joe. Alton left on Monday for Calgary, where he goes to work on bridges on the C. P. R. Mr. Alton will be very much missed in the Sunday school and Christian Endeavor society.

Mr. Bryan, public school inspector, paid our school a visit this week.

Last Sabbath was held as "Childrens Day," in our appointment and Mr. Forbes conducted a service which was much appreciated by the young folks. Oct. 30, '01.

LACOMBE.

The reports from the threshers are very satisfactory. There seems to be very little wheat in comparison with past. At present it is hard to form an estimate as threshing is not nearly all done.

Fall ploughing has been carried on very extensively and because of this we hope to have a much greater quantity of grain next year.

Building is still carried on extensively. The new residence of J. Johnson, is nearly finished. Mr. McDonald, one of our most enterprising merchants, has erected a new tin shop. The Episcopal church is nearly completed. It has a very nice location a little out of the town and presents an attractive appearance.

Rev. C. H. Andras, of Wetaskiwin, favored us with a very interesting lecture on the "Lost tribes of Israel." As he at one time spent a year in eastern lands in the vicinity of Palestine, his lecture was all the more instructive. The Methodist church celebrate their anniversary on the 4th November, when Rev. L. Gaster will assist. The ladies of the church will give a supper on the same evening.

Rev. O. Gronlund, of Calgary, paid Lacombe a visit last week.

Mrs. Sharpe, Sr., of Eastern Canada, arrived here on the 28th to visit her son Dr. Sharpe.

Miss Ferda Puffer has returned from Banff looking much improved in health.

A number of our teachers attended the teachers' convention at Red Deer.

The Metropolitan Hotel is being run by Captain C. Inskip, a brother of the proprietor of the Victoria Hotel.

Elmer Bruce, formerly baggage master, on the C. & E. railway has moved into town. He is still afflicted with poor health.

C. Townsend has removed his grocery store to Kansas Ridge.

Hosken, the jeweller, is moving his jewellery store to Nanion street joining the drug store.

A. Gilmour is building a handsome residence on Barnett avenue.

Ward Clarke has taken up a ranch and will soon move in the country.

PONOKA.

Herald, Oct. 25.

Improved farms are becoming in greater demand every day and land in the vicinity of Ponoka is changing hands daily. This week Henry Hertz, of Chester, Neb.; purchased R. J. McCue's fine half section four miles southeast of town for a consideration of \$2,800.

Fourteen men are now at work on the school building, and the structure is rapidly assuming the appearance of the neat and creditable building it is to be.

Dominion bridge builder Olin is this week pushing the work on the Battle river bridge west of town. The location of the bridge is on section 8-43-25, near Evan Lloyd's house.

Catholic church services will be held in the school house regularly at 10:30 a. m. on the first Sunday in each month until further notice.

Police Inspector Belcher, of Edmonton, was here the first of the week on business connected with the stationing of Const. Vernon.

HOW TO WINTER BEES IN MANITOBA.

Non-West Farmer.

To winter bees successfully in this country, they must have enough honey left in their hives in the fall to last until the middle of May next. Then between the 5th and 15th of November they should be placed in the cellar with the entrance to the hive open the full width. The hive should be set with the front an inch or more lower than the back. The covers are to be taken off and a chaff cushion laid on top of the frames, first putting two, or three sticks about half an inch thick across the frames under the quilt, so as to give the bees a road from empty combs to full ones, without having to come to the bottom, where the air is colder. I make a practice of cleaning each bottom board some time in January, and find it a good thing to do.

STRATHCONA'S NEW SCHOOL BUILDING.

Plaintiff; Strathcona's new public school is built of red brick throughout, of local manufacture. The basement is the full size of the ground floor and contains besides furnace, coal and store-rooms, rooms suitable for physical culture classes. On the ground floor are three large school-rooms, on the second floor three more school-rooms of same size, also a cheerful office and library room. The third floor has not been finished but will form a very large and commodious assembly room for the whole school. The ceilings are high, the halls and staircases wide and cheerful, the rooms are well lighted and ventilated. Four furnaces supply the heat for the building and the system of ventilation is very complete and satisfactory. The structure occupies the east end of the block of land lying between Griesbach and Oliver Aves. and Hardisty and Grandin Sts. It has recently been cleared and levelled and is now being enclosed by a substantial fence. Altogether this is one of the finest school properties in the Territories.

IMPERIAL PAY AWAITING CLAIMANTS.

Ottawa, Oct. 28.—The department of militia is holding Imperial pay for war gratuities for over fifty members of Canadian South African contingents, whose addresses are not known to the department.

The names of those supposed to be in the west are appended: 246, C.M.R., Pte. F. Pointon, Regina; 184, C.M.R., Pte. H. Lee, Calgary; 107, C.M.R., Pte. J. Fletcher, Calgary; 292, R.C.D., Pte. J. Kavanagh, Winnipeg; 50, R.C.D., Pte. E. Watts, Winnipeg; 2,000, C.M.R., Sgt. V. Dodd, Revelstoke, B.C.; 302, C.M.R., Pte. J. Simms, Nelson, B.C.; 197, C.M.R., Pte. W. J. Mullen, Edmonton, N.W.T.; 32B, C.M.R., Pte. R. H. Weir, Brandon, Man.; 81, C.M.R., Pte. T. Dowler, MacLeod, N.W.T.; 202, Strathcona's Horse, Pte. A. Hardy; 481, Strathcona's Horse, Pte. T. Thompson; 496, Strathcona's Horse, Sgt. T. A. Morrison; 419, Strathcona's Horse, Pte. E. S. Crony; Kitchener's Horse, E.S. Bule; 2,323, Ro'er's Horse, Trooper Daniels.

FREE REPRINTS OF SPLENDID PAINTINGS.

Mr. John Jones, who for twelve years lived among the miners and ranchers in our own West, and who first studied art in England when a youth, is recognized as Canada's leading exponent of outdoor painting. Mr. Jones' two last paintings are his best, two large canvases, portraying typical incidents of our Western life. They are styled, "On the Edge of the Herd" and "The Miner's Farewell." The former is a striking incident of a kid-up, a cow-puncher, thrown from his horse, being charged upon by a wild steer, while a fellow cowboy, racing after, as preparing to throw his lasso. The herd in the background grows restless and threatens to stampede. Behind all rise the snow-capped peaks of the Rockies. As a whole the painting is a masterpiece of coloring, drawing, and action.

"The Miner's Farewell" depicts a mounted miner with saddle-bags bulging with gold dust, homeward-bound, far down in the valley he sights his old comrades working at the sluices. A parting wave and cheer is exchanged. The background is a mass of mountain and mist, forest and cloud. The treatment is masterly, bold and true.

The Mail and Empire has secured exact 14-color reproductions of these paintings, 15x20 inches in size. Every detail of color and grain is faithfully brought out. They offer free the choice of the two with every year's subscription to the Weekly, or three months' subscription to the Daily. Both pictures are given free if a subscriber sends a year's subscription to the weekly, in addition to his own, or if he takes the Daily for six months. See our clubbing list.

THE MINER'S FAREWELL.

Free Press: Owing to the scarcity of men there now appears a likelihood that the Canadian Northern line from Sturgeon to Fort Frances will not be completed until some time far on in December. The reason for this has been the great scarcity of men, who cannot be got with wages from \$2 to \$2.50 per day. Employment agents are advertising for them in 100 lots. Men that have been engaged have left the work and there is now between forty and fifty miles of track to lay with several places where grading is not completed.

Mr. T. H. White, the chief engineer, was seen yesterday by a Free Press reporter while Mr. White was passing through on his way to the coast, and was told that what was known of the great trouble with the men was true. Mr. White was, however, sanguine about the prospects of completing the line in the time stated by the company. He admitted that there were about forty miles of rails to lay and that the grade was not all completed. The trouble was a matter of no trouble, as this had been nearly all finished, including the bridge over Rainy lake.

COLOGOS, EXECUTED.

Auburn, N. Y., Oct. 29.—At 7:12 o'clock this morning Leon F. Czolgosz, murderer of President William McKinley, paid the extreme penalty exacted by the law for his crime. He was shocked to death by 1,700 volts of electricity. He went to the chair in exactly the same manner as have the majority of all the other members in this state showing no particular sign

of fear, but in fact, doing what few of them have done, talking to the witnesses while he was being strapped in the chair.

"I killed the president" because he was an enemy of the good people—the good working people. I am not sorry for my crime."

These were his words as the guards hurried him into the chair, words he supplemented a moment later mumbling them through the half adjusted face straps, "I am awfully sorry I could not see my father."

C. P. R. LANDS RISE IN PRICE.

Telegram: On Thursday of this week the prices of C. P. R. lands in Eastern Assiniboia will be increased by \$1 per acre.

The unprecedented rush of buyers to which L. A. Hamilton referred in an interview published in the Telegram on Friday, together with the widespread advertisement this year's magnificent wheat crop has given to this territory in common with Manitoba, has, it is understood, led to the decision.

Yesterday no less than 8,200 acres of these lands were disposed of and an offer received from American speculators for a block of 100,000 acres. Such sales have not been uncommon of late. Hence the decision.

Up to the present time the average lands have been offered at \$3 to \$5, but in future \$4 to \$6 will be charged. It is not anticipated, however, that this slight increase in price will in any way discourage would-be purchasers. The area affected is precisely similar to the wheat lands of Manitoba and has played its part this season in swelling the grain output of the world.

JUST RECEIVED.

Another lot of pretty stitched ready-to-wear Hats. Also Children's Toques and Tams.

All the latest ideas in Trimmed Millinery, Pattern Hats, Bonnets, and Novelties.

All orders for Hats promptly executed at low prices.

STRAITHCONA.

W. L. Wilkin returned on Friday last from a business trip to Roseland, P.C. He says the strike is still on and comparatively little is being done in the mines.

The Strathcona hockey club has arranged with Messrs. Smith & Rackham for the erection and maintenance of a rink for them this winter. The hockey rink will be 120x60, and a first course of around it for skating. It will be lit by about 25 incandescent lamps.

Farmers complain bitterly of the depredations made by coyotes this fall on their poultry. These pests are everywhere and owing to the scarcity of rabbits and mice, their natural prey, they go for the hen roosts. Some time ago the Strathcona board of trade memorialized the North-west assembly on the matter of requesting asking for a bounty for their destruction but were informed that there was no money available for the purpose.

The school enrolment for October is the largest on record; but irregularity due to sickness or other causes has brought the average slightly below the record mark. Number on roll 320. Average attendance 253.07.

MANITOBA MARKETS.

Free Press, Oct. 30.

It is estimated that for the week nearly three-quarters of a million bushels of Manitoba wheat were sent for export to the United Kingdom. This was done on a basis of about 70-100 bushels. It is variously estimated by grainmen that from 30 to 50 per cent of the season's crop in Manitoba has now been threshed. Had the splendid weather of the past two weeks continued it is certain that all of the immature crop would have been threshed before another month had elapsed. Various figures are also given as to the amount of wheat shipped, and it appears to be anywhere between seven and eight million bushels. Up to Saturday night there was reported in store at interior points and at the lake front about five million bushels. Prices are practically unchanged. No. 1 hard at Fort William yesterday was quoted at 70-80¢ to 70-80¢ for spot or October delivery; No. 1 northern, 67-70¢; No. 2 northern, 64-67¢; No. 3 northern, 60-63¢. Exporters complain that these figures are too high.

Oats—At country points, 24¢ to 26¢ per bushel is being paid; 30¢ to 32¢ here.

Country wheat—Prices ranged from 30¢ to 32¢ throughout Manitoba.

Barley—Malting grades, 38¢ to 40¢; feed, 34¢ to 36¢. Very little has as yet gone through Winnipeg.

Flax seed—Offerings are light, and quotations are running at about \$1.15 to \$1.17 per bushel.

Butter—Creamery butter prices remain unchanged at from 17¢ to 19¢ per pound. Creameries will remain going at about a month longer.

Dairy butter—Choice fresh dairy cakes are quoted 14¢ to 17¢; inferior qualities, 11¢ to 13¢.

Eggs—Prices are still soaring, and coddling eggs are worth from 17¢ to 18¢ per dozen. Fresh eggs, when guaranteed, are worth 25¢ per dozen.

Wheat—Prices are still soaring, and coddling eggs are worth from 17¢ to 18¢ per dozen. Fresh eggs, when guaranteed, are worth 25¢ per dozen.

Wheat—Prices are still soaring, and coddling eggs are worth from 17¢ to 18¢ per dozen. Fresh eggs, when guaranteed, are worth 25¢ per dozen.

TOWN LOTS TO BE SOLD BY AUCTION.

In the process of winding up the affairs of the Western Loan and Trust Co. of Winnipeg, a number of parcels of land in various parts of the West are advertised for sale by auction. The following parcel of Edmonton lands is advertised to be sold in Winnipeg on Nov. 27th, next:

Parcel 23.—In the town of Edmonton and being lots 28, 29, 30, 31, 32, 33, 34, and 35 in block 1, all of block 16 with the exception of lots 30 and 31, all of block 17 except lot 35, as shown on a plan of subdivision of river lots 12 and 14 of the Edmonton settlement, registered as Plan D.

The vendors are informed that there are a number of buildings on this property.

HOTEL ARRIVALS.

Queen's—H. H. Wright, Beaver Hills; J. E. Sheppard, M. Uhlich, Leduc; D. W. Jennings, Mrs. Jennings, Olds; C. Maim, F. Grant, E. Kelly, M. Silver, H. D. Round, city; F. W. Ervin, Strathcona.

Alberta—N. E. Brooks, W. Toole, W. R. Hall, G. Hall, Calgary; W. Ant-Liff, F. G. Sanford, Winnipeg; H. G. Reeler, Toronto; L. T. Morgan, Chicago; C. W. Sheppard, Leduc; L. J. Munford, Fargo.

Jasper—F. W. Tracy, Yorkton; D. J. Williamson, town; J. E. Truman, Ponoka; J. Clark, Pigeon Lake; A. Hiem, Leduc; S. J. Carpenter, E. C. Anderson, A. Guthrie, H. Kirk, Edmonton; R. J. Burns, Didsbury; D. Caswell, Rat Portage.

LEUDUC.

The new frame school is nearly completed and will be in readiness for occupancy with the opening of the year. The first coat of plaster has been put on and the furnace will be installed during the week. The school is arranged to accommodate two rooms and is situated on Freeman avenue about a block south of the old school.

W. McGee is erecting a frame store east of the Mercantile Co's building.

THE PAN-AMERICAN MODEL DAIRY.

A feature of the agricultural department of the Buffalo exhibition was the contest in profits of butter making between cows of different breeds. The following is the report for the third week of October:

The model dairy is now going along on the lines that were laid down when the warm weather came to an end. The Jerseys and Holsteins are making the best showing, more especially as they are holding well together, while the Guernseys are week after week dropping more and more apart. They are now holding fourth place with the French-Canadians in fairly good fifth, and that with one miniature cow that has never earned or eaten nearly as much as the average of the herd.

When they were brought into the list and were considered much of a curiosity, but they have very well established their claim to good dairy qualities. They are of course something of a northern animal and suffered more from the midsummer heat than some others did, as did also the Ayrshires which had not as yet been imported long enough to become fully acclimated.

It is probable that the Canadian Shorthorns will make up a total that is larger in proportion to the others than was expected. The standing of the herds for the week ending Oct. 15, is as follows: Jerseys, \$7.69; Holsteins, \$7.31; Ayrshires, \$7.02; Guernseys, \$6.83; French-Canadians, \$6.01; Red Polls, \$5.75; Polled Jerseys, \$5.39; Shorthorns, \$5.38; Brown Swiss, \$5.18; Dutch Belted, \$4.01.

BLAIRMORE COAL MINES.

Frank Sentinel: Situated in a beautiful position on the Crow's Nest river, about three miles west of Frank, is the village of Blairmore, a town which although less than a year old has already several substantial buildings and numerous smaller ones. Blairmore is the result of the excitement which followed the advent of capital into the coal fields of southwestern Alberta, the town springing into existence soon after Messrs. Proctor and Fairburn of Nelson, B. C. secured the coal mines nearby.

A short distance north of the town the Proctor mine is located, the workings being well within sight of the railway depot. Here some little work has been done and enough coal been taken out to supply the local demand of Blairmore.

About five miles south of the town is another valuable coal property, which is being developed by about a dozen men, under the management of C. St. Barbe, of Nelson, for an English syndicate. The developers of this property are enthusiastic over their holdings and some interesting reports of it have found their way into the coast papers.

Unfortunately for Blairmore the title to the townsite is in dispute, the claimants being H. E. Lyons and Felix Montalbet, of Blairmore, and R. Moffat, of Cranbrook. This difficulty, however, is, we believe in a fair way of being settled.

In the town which is strung along the C. P. R. right-of-way, are three hotels, two general stores, one hardware store, a photographer, restaurant, laundries, &c., and a few residences.

C. P. R. LAND SALES.

The C. P. R. land sales in Alberta this season amount so far to about 220,000 acres, against 171,000 acres last year. There has been a most satisfactory influx of people. The number has been greater than ever before and they have brought more belongings with them. They are chiefly from the Middle Western States. Most of the parcels have been made by actual settlements.

RAILWAY LAND PATENTS.

Patents are being issued rapidly for lands of the Alberta Railway, & Co. Company in Southern Alberta. These lands do not enjoy any exemption from taxation and can be taxed as soon as patented.

Washing tells the tale.

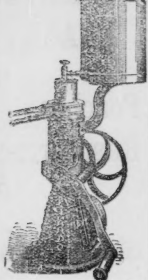

Stanfield's Unshrinkable Underwear

It proves the difference between Stanfield's and those that are simply branded "Unshrinkable," "Guaranteed," etc. Stanfield's remains the same in shape and size, as soft and pliable as when purchased. Every garment bears the guarantee of the Truro Knitting Mills Co. to return your money if they shrink. No special directions for washing. As the pants receive more wear than the shirts, they are made of heavier material. Stanfield's Unshrinkable Underwear is sold on a positive guarantee against shrinking in the wash. Your money back if it does.

LOCAL

—F. E. Haines left this morning for Montana.

—Miss Nettie Asher has taken a position in Mathers' photograph gallery.

—Messrs. G. B. Campbell and R. Hoar returned last evening from a couple of weeks' holidays at Beaver lake.

—The tea given by the ladies of the Woman's Hospital Aid society in Robertson Hall on Saturday evening netted \$16.

—Dr. Gauthier, late of St. Albert, has engaged the building next to the Jasper House formerly occupied by Mrs. Wright.

—J. Kennedy, of Horse Hills Plain, has finished threshing 350 acres of crop. He had 2,700 bushels of wheat of which 2,000 bushels is No. 1; over 16,000 bushels of oats and 1150 bushels of barley. Something over 20,000 bushels in all.

—J. K. Cornwall came in from the Landing on Saturday on the stage. He leaves tomorrow to take out the first mail of the season for Lesser Slave lake.

—It is understood that a representative of the Canadian Northern will go north during the coming winter to inspect the Grand Prairie country near the Peace, and will possibly investigate the South Pine Pass through the Rockies.

—To-day being the 28th anniversary of the institution of the N. W. M. P. the event will be celebrated by a supper by the N. W. M. P. veterans' association in Hines' restaurant this evening. Members of the N. W. M. P. force and of the South African volunteer association are invited to attend. The members of these organizations attending will assemble at the fire hall at 8:30 and proceed to the restaurant for supper at 9 o'clock. Tickets \$1 each.

THE RAILWAY.

Operations have been suspended for the winter on both sides of the river. The question of railway connection for Edmonton is settled for another season.

SCRIP.

J. F. Prudhomme, secretary of the half-breed scrip commission, arrived on Saturday evening. He begins to-day taking evidence in the cases to be submitted to the commissioner, in the town hall. Mr. McKenna, the commissioner, is expected to arrive on Wednesday evening. Some 200 cases await decision at this point. They will probably be occupied at Edmonton for a couple of weeks.

CHALMERS MEMORIAL SERVICE.

The memorial service to the late Lieut. Chalmers took place in All Saints' church yesterday. About three o'clock a column was formed at the fire hall and headed by the fire brigade band marched to the church. The procession, which was under the command of Major Belcher, consisted of members of the South African volunteer association, members of the N. W. M. P., ex-members of the N. W. M. P., Mayor MacKenzie and council, ex-members of Canadian militia and ex-members of Imperial forces. In all fifty-four men were in line. The church was filled to the doors and a very impressive memorial service conducted by the rector, Rev. H. A. Gray. A tablet to the memory of Lieut. Chalmers was to have been erected but did not arrive last week as expected and the placing had to be postponed. After the service the procession reformed and marched back to the fire hall.

WINTER.

The splendid weather which prevailed during October ended with that month. Flowers were in bloom in the gardens until Thursday, the 31st. That night there was a sharp frost putting an end to fall gloving and Friday was cold and blustery, with a little snow falling. Saturday was clear and windy but still cold. Ice began to run in the river on Friday night and before Saturday night, had jammed in some places. Sunday was cool, clear and breezy and two inches of snow fell last night. The weather is slightly milder to-day and a little snow is falling. Frost has taken strongly in the ground, so that there is no likelihood of fall plowing being resumed. The river has set fast at the bridge and at the bend above, but is clear below. This is a remarkably early setting in of winter.

HOTEL ARRIVALS.

Victoria—C. Verstrate, J. Lapierre, L. Boudreau, St. Albert, O. Berthiaume, Leduc, V. Mageau, Lac la Poudre, G. Bolduc, Beaver Hills; H. B. Peters, Fort Saskatchewan; C. R. Trumper, Carberry; S. H. Smith, Wetaskiwin; Sunday.

THE BRITON'S HEAVY HAND.

Tarkastad, Oct. 12.—Several sentences on rebels were publicly promulgated in the market square to-day. Among the condemned was Jacobus Schoeman, a lieutenant in Lotter's commando, and the son of a well-to-do farmer, who was condemned to be shot and whose sentence has been confirmed by Lord Kitchener. Two youths, also of Lotter's commando, who had been recommended to mercy by the court, were sentenced to receive 25 strokes each and to be imprisoned during the continuance of the war.

Cape Town, Oct. 12.—Two sentences for rebellion have been publicly promulgated at Kimberley. The prisoners were farmers, belonging to Barkly West and Jacobabad respectively. They had both been condemned to death by hanging, but the sentences were commuted to ten years' penal servitude in the case of the Barkly West man and to deportation in that of the Jacobabad farmer. At Vryburg the sentence of ten years' penal servitude passed upon an ex-feld cornet has been commuted to three years and the death penalty in the case of a farmer to penal servitude for life. The sentence of death by hanging passed upon two young farmers who had twice joined the enemy having been confirmed was carried out at Vryburg this morning. At the military court at Worcester a farmer named Moller has been fined £100 with the alternative of nine months' imprisonment for having more than seven days' supplies on his farm. In passing sentences the court hoped that his case would be a warning to the inhabitants.

BULLER'S RETIREMENT.

The enforced retirement of General Buller is a hopeful sign in the progress of the war in South Africa. En-trenched in social influence his greatest blunders were condoned, and although he could not be continued in command in South Africa he was placed most comfortably in England. But his evil fate pursued him. The lack of brain which caused him to send despatches from the field of battle which made British soldiers before the world, compelled him to break the silence that was his only protection. He spoke and he was destroyed. It is peculiarly British that Buller could suffer defeat after defeat and uselessly sacrifice the lives of hundreds of men without official disgrace, and yet for a speech delivered at a public entertainment he is removed from his command. However, the fact that he has been removed in disgrace is a step in advance. It shows that the protection which social influence has hitherto been able to extend to incompetence has broken down, and henceforward we may expect to see more summary and severe methods employed not only with treacherous or traitorous Boers, but also with the haw-haw brigade who have so long disgraced the land of their birth and the uniform which they wore. Officers in command of supposedly mobile columns who had to be publicly ordered to refrain from looting the transport with stolen kitchen ranges and pianos, are beyond criticism. The language does not contain the necessary words. They are all of a piece with "brave Buller," who prepared for his campaign in South Africa by having the number of dinners which he expected to need before reaching Pretoria put up in sealed tins before leaving England.

London, Oct. 30.—Lord Kitchener, in a despatch from Pretoria, dated Tuesday, Oct. 29, says Col. Byring surprised a Boer commando Oct. 25 and captured twenty-two prisoners, including Field Cornets Spanneberg and Onisthous.

Col. Kortscake, the dispatch adds, had a day's running fight with Muller's Boer commando on Oct. 27 northwards of Balmord. He killed four Boers and captured 54 prisoners, 36 wagons and much stock.

COAL MINES OF ALBERTA.

Frank Sentinel; Some nine months ago S. W. Gebo crossed the International boundary line in search of coal mining properties. Just nine months ago he came to the present site of the town of Frank and started two men at work with pick and shovel at the spot where is now located the mouth of the main entry of the Frank-Gebo mine. He was not long in determining that a valuable coal deposit lay hidden beneath the eastern slope of Turtle Mountain.

Associated with Mr. Gebo was the Hon. E. L. Frank, of Butte, Montana, a capitalist and mine operator. Mr. Frank was called to Alberta to inspect Mr. Gebo's discovery. The preliminary work proved so satisfactory that they immediately purchased from the government, 3,000 acres of coal land, paying \$20,000 in cash for the property. About 2,000 acres have since been added to their holdings and they now own

over four miles on the vein. Preparations have been made to develop the property on a large scale and within a few weeks of Mr. Gebo's first appearance upon the scene a large force of men was actively employed. In the time that has intervened a mine has been developed which has an output of 300 tons a day, an achievement never before paralleled in the history of coal mine development.

The property is situated on the Crow's Nest branch of the Canadian Pacific railroad at the mouth of the pass and between the Middle and South forks of the Old Man river, in Alberta Territory. The strike of the vein is almost due north and south following along the base of Turtle Mountain. It is what is known as a vertical vein standing at a pitch of 87 degrees. The vein at the point of discovery was eleven feet in width. It has steadily widened until at the face 1200 feet from the main entry it is twenty-seven feet wide and its most striking characteristic consists of the fact that all traditions with regard to wide coal veins are controverted in this instance for whereas the usual experience with very wide veins is that they become dirty with depth, in this case the coal has grown better as the vein has widened and from wall to wall there is nothing but solid clean coal without so much as a piece of bone in it.

Two tunnels are being driven on the vein, one is to a depth of 1000 feet and the other 1200 feet and a shaft has been put down 60 feet, the main entry or tunnel being so large and roomy that a four horse omnibus could be driven into it with the utmost ease. The vein lies in iron sandstone which forms walls like adamant and is but a few hundred feet from the line formation of the mountain which it follows. The vein has been traced and opened up on the surface the whole length of the property which affords some idea of its enormous possibilities as a coal producer.

The mine is perfectly free from gas and is one of the best ventilated mines in the Dominion if not the best. About 900 feet in from the mouth of the main entry an upraise has been driven to the surface to serve as an air shaft and which affords a free circulation of air throughout the mine. In fact the air is so pure and the mine so free from gas that open lights are used in all parts of it.

The coal is of the exceedingly hard bituminous variety and innumerable practical and scientific tests have proven it to be the best steam coal ever discovered

on the American continent, save in value in this respect, the famous Pittsburgh coal and equalling the best product of Wales where the finest bituminous coal in the world is produced. It is also an excellent coal for domestic purposes and as a coking coal, numerous tests have proven it to be fully the equal of the Fernie product which is supposed to be the best coking coal in this country. The company is now completing six coke ovens, the beginning of 250 which will be put in as soon as the weather will permit.

In various capacities the company now has 170 men employed and it is expected that within six months the pay roll will be \$25,000. The company is now putting in a new dipple, a set of 100 ton railroad scales and one of the most improved fans preparatory to the extensive operations contemplated.

The company has a spur running from the main track of the railroad to the mine and altogether has about two miles of sidings, the capacity of which is so over taxed at present that steps are being taken to double track the spur.

An electric light plant with a capacity of 750 lights is being installed which besides furnishing light for the town will illuminate the main workings of the mine.

All this has been achieved in the short space of nine months. Old coal mining men say it was never before heard of in the history of coal mining and the credit is all due to Mr. Gebo who by his indefatigable efforts has borne out the reputation he brought with him from the States, that of the best coal miner in the entire West.

BIRTHS.

Smith—At Edmonton, on Wednesday, Oct. 30th, 1901, the wife of E. H. Smith, of a daughter.

DEATHS.

Latimer—At Winnipeg on Monday, Nov. 4th, Mrs. Wm. Latimer, of Edmonton.

The body of deceased will be brought to Edmonton for interment. The funeral will take place from the Presbyterian church on Thursday afternoon at 2 o'clock.
